# Arshiya Evan Moallem

613-406-0895 | arshiyamoallem@outlook.com | Linkedin | GitHub | Website

## EDUCATION

**Bachelor of Engineering, Software Engineering Co-op** **September 2023 - Present**
Carleton University Ottawa, ON
Fourth-year standing, Entrance Scholarships, Expected Graduation: April 2029
Awards: 2nd Place, cuHacking 2025, Carleton Impact Challenge

## WORK EXPERIENCE

**Digital Solutions Developer Co-op** **September 2026 - Present**
Department of National Defence (DND) Gatineau, QC

- Developed client-facing web applications using Power Apps to digitize internal workflows
- Engineered automated backend workflows with Power Automate to streamline client approvals
- Designed structured SharePoint lists and schemas, enforcing secure role-based access
- Gathered technical requirements in an Agile team to deliver prototypes, testing, and documentation

**Cloud IT Technician | Private Cloud Team** **May 2025 - Dec 2025**
Shared Services Canada (SSC) | Services partagés Canada (SPC) Ottawa, ON

- Configured 4 OpenStack VMs and a load balancer routing SSH traffic across backend nodes
- Automated virtual infrastructure deployments using Terraform and Ansible, establishing Infrastructure as Code (IaC) workflows in a private cloud setting
- Administered Linux systems in Red Hat and Ubuntu environments, performing system configuration, troubleshooting, and maintenance tasks
- Maintained private cloud health and system reliability utilizing Git workflows and internal DevOps tooling

## TECHNICAL SKILLS

- Proficient in Python, C, Java, HTML, CSS, JavaScript, SQL, Terraform, Ansible; familiar with C++, Go
- GUI development (Java Swing & AWT), Object-Oriented Programming (OOP), data structures & algorithms, operating systems, refactoring, debugging, unit testing, relational databases
- Experience with software lifecycles, software architecture, Git, Visual Studio Code, IntelliJ IDEA, Linux (Ubuntu & Red Hat), Docker, Windows PowerShell, Microsoft Power Apps, Power Automate, SharePoint Online, Office 365, OpenStack, React, Node.js, Jira

## PROJECTS

- **Social Media App (C)**
  • Architected and Simulated core social media features: user registration, profiles, friends, and posts
  • Used linked lists, stacks, and dynamic memory to optimize data management and storage
- **Video Game Hub (Python)**
  • Built a modular terminal-based hub with 4 games using OOP design, unit testing, and ANSI colors
- **Library Management Database (Python & SQL)**
  • SQLite3 database with 8 tables and 3 N:N relationships managing books, patrons, authors, and genres
  • Tkinter GUI supporting borrowing history, overdue tracking, book search, and circulation management

## ADDITIONAL INFORMATION

- Bilingual – Proficient in English and French
- Government of Canada Reliability Status (Eligible for transfer/reactivation)
- Docker Foundations Professional Certificate — LinkedIn Learning & Docker, July 2026
